

# Novel methods for the accounting of forest ecosystems and circular materials

*Webinar 25th January 2021*

12.30 – 12.35 Welcome and opening of the webinar (Pekka Hurskainen, SYKE)

12.35 – 12.50 A brief review on material flow and ecosystem accounting as part of environmental accounting (SEEA) (Jukka Muukkonen, Stats Fin)

12.50 – 13.50 Circular material accounting (Annika Johansson & Henri Virkkunen, SYKE)  
Commentary (Maija Holma, Suomen uusioraaka-aineliitto)

13.50 – 14.10 Coffee break

14.10 – 14.30 Forest ecosystem accounting indicators (Annika Kangas, LUKE)

14.30 – 14.50 Indicators from existing spatial data - forest fragmentation (Pekka Hurskainen, SYKE)

14.50 – 15.10 Indicators from remote sensing data using machine learning (András Balázs, LUKE & Janne Mäyrä, SYKE)

15.10 – 15.30 Discussion and conclusion (Petteri Vihervaara, SYKE)
